

SOC 1 TYPE 2 AUDIT COMPLIANCE

As part of Wurk’s commitment to provide the highest quality Human Capital Management platform, as well as compliant payroll solutions, we leverage independent third parties to help us strengthen our security by conducting a System and Organization Controls (SOC) Audit.

The standard demonstrates that Wurk has adequate controls and processes in place for financial reporting.

OUR COMMITMENT TO YOU

The SOC Audit provides validation that Wurk has secure and compliant processes in place to protect cannabis businesses. This confirms there are strong controls around client data and financial information to ensure confidentiality, reliability and scalability.

UNDERSTANDING THE SCOPE

The SOC 1 Type 2 Report covers internal controls for accuracy, security, completeness and timeliness in these areas: onboarding, payroll and tax money movement and processing, physical and logical security, change management, and vendor management. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

CANNABIS TECHNOLOGY STANDARD

Wurk is the only SOC compliant payroll provider dedicated to the cannabis industry and one of only three technology companies in the industry to be audited, behind two publicly traded seed-to-sale companies. In a complex, highly-regulated industry, it’s important you can trust partners that go above and beyond to protect your business.
